

# Call for Papers

Call for poster presentations related to food and sustainability

◆ Themes: Appropriate are themes surrounding food and its sustainability. We especially welcome multi-themed projects, as well as researchers looking to connect to a broad theme hereafter.

p.7 Lang, T., Barling, D., & Caraher, M. (2009). Food policy: integrating health, environment and society. OUP Oxford. (訳：平賀緑)

◆ Overview for abstract submissions: Please send a Word file including the title, an up to 200 word abstract, and the author's name, department, and title (file name should be the head author's name).

◆ Deadline for abstract submissions: October 9<sup>th</sup>, 2018

※ We will inform you about your acceptance by October 12<sup>th</sup>

◆ Where to submit: [ecocheck@eprc.kyoto-u.ac.jp](mailto:ecocheck@eprc.kyoto-u.ac.jp)

◆ Attendance fee (materials fee)

General (by 20<sup>th</sup> Oct through bank transfer): 3,000 yen

General (payment at event): 4,000 yen

Student (by 20<sup>th</sup> Oct through bank transfer): 1,000 yen

Student (payment at event): 2,000 yen

※ Attendees from abroad are charged the price for advanced bank transfers even if paying at the event.

## Kyoto University International Symposium Food & Sustainability

### October 29-30, 2018

### Kyoto University

### Clock Tower Centennial Hall

For registration and enquires, please contact [ecocheck@eprc.kyoto-u.ac.jp](mailto:ecocheck@eprc.kyoto-u.ac.jp)

※ As the program may slightly change from the contents here, please consult the latest information

### Sponsor: Kyoto University

Cosponsor (tentative): Kyoto City, FAO, Kyoto City Committee for the Promotion of Waste Material Reduction and others

Support/Cooperation: Hulic Co., Ltd., FP Corporation, TAIHEIYO CEMENT CORPORATION, Hiei-yuba Honpo Yubahachi Co., Ltd. and others

Plan and collaboration: École de Kyodai (Ayano Kubo, Rojina Bade, Makiho Okuno, Ami Shirai, Saki Nishimoto, Shizuka Eshiro), TABLE FOR TWO Kyoto University (Hiroaki Matsuo, Chihiro Tanaka, Yukari Tojo), Second Harvest Kyoto

## 29<sup>th</sup>, Conference Room (Floor 2)

### Sessions on Food and Sustainability

(13:00 - 18:00)

We are planning oral presentations from several researchers and stakeholders on the following themes related to food and sustainability, along with discussions based on these presentations. Themes are separated by room and time slot, though a portion of them run at the same time.

#### ● Session themes

- Food and climate change
- Food and water problems
- Food policy
- Food and cities

#### ● Kyoto University Coordinators (in no particular order)

**Motoki Akitsu**  
Grad School of  
Agriculture

**Misuzu Asari**  
Grad School of Global  
Environmental Studies

**Eiji Nawata**  
Grad School of  
Agriculture

**Roger C. Baars**  
Grad School of Global  
Environmental Studies

**Yosuke  
Yamashiki**  
Grad. School of Advanced  
Leadership Studies

## 29<sup>th</sup> afternoon – 30<sup>th</sup> evening

### International Exchange Hall (Floor 2)

#### Research Posters on Food and Sustainability

About 30 people, including students and young researchers, will present posters on a wide range of research with food and sustainability as the theme. This is an opportunity to directly exchange thoughts on the latest research.

● Core time (presentation times slots): 29<sup>th</sup>, 15-16:00; 30<sup>th</sup>, 17-20:00

✂ Presenting on the 30<sup>th</sup> is reserved only for participants of the get-together

### 30<sup>th</sup> evening (18:00-20:00)

All participants will be invited to the networking dinner at International Exchange Hall (Floor 2)

### Other events(in Japanese)

Exhibition, Food loss symposium, WS on food policy  
(English translation will be available for some events)

## 30<sup>th</sup>, Large Hall (Floor 1)

### Keynote Speech (9:00-)

**Food and the city: Food policy in Toronto**  
(tentative)

**Dr. Lori Stahlbrand** (Toronto Food Policy Council)

There are cities in the world with decades of history and experience in food policy. We invite a speaker from Toronto, a representative example. There is much to be learned from the history and experience of food policy designed by government officials, city residents, producers, business stakeholders, and researchers—all of who worked together to identify a number of issues and resolve them as organically as possible.

### Special Symposium (10:00-12:00)

#### Realizing sustainable food

While food is our basic element, it also presents a number of problems. For example, to say that all 17 of the UN's Sustainable Development Goals (SDGs) relate to food is no exaggeration. In this symposium, we consider some of these goals, and while sharing problems and forefront measures, we also search for clues toward solutions.

● Planned presenters (titles omitted); Coordinator: Motoki Akitsu Kyoto Univ., Grad School of Agriculture

**Isao Sakaguchi**  
Gakushuin Univ.,  
Faculty of Law

**Shinichi Sakai**  
Kyoto Univ.,  
Environment Research  
Preservation Center

**Setsuko Sugimoto**  
Administrative Director  
of the Residence  
Preservation Council of  
Sugimoto Residence  
(Important Cultural  
Property) / Culinary  
Researcher

**Steven  
McGreevy**

Research Institute for  
Research and Humanity

**Other FAO participants**  
(planned)

### Symposium secretariat
