Internships

Examples of Research Projects

- Intergenerational impacts and resilience of transmigrant communities in the outer islands of Indonesia
- Comparing livelihood strategies between mountain and peri-urban resettlement communities in central Vietnam
- Waste management and campus sustainability
- Action research to achieve sustainable communities and SDGs

Lab Activities

- Joint seminars and workshops with many stakeholders
- Research project on disaster and waste management for foreign tourists/residents
- Sustainable campus activities
 - Symposium
 - Flea market
 - Ecole de Kyodai events
- Sustainable cooking and *machiya* visit
- Fun activities! (International potluck party, outings, etc.)
